PROFILE	Product designer with 4+ years building decision-centric experiences for enterprise SaaS, AI, and data platforms. I turn complex analytics and operational workflows into clear, confident decisions — partnering with product and engineering from discovery through release. Currently designing Lumenore, a BI & AI platform spanning conversational analytics, data management, dashboards, and enterprise workflows.

EXPERIENCE

WHERE I'VE WORKED, WHAT SHIPPED

Jul 2024 — Now Bhopal, IN 2 yrs	Netlink Software Group PRODUCT DESIGNER · LUMENORE Leading product design across Lumenore, an enterprise BI & AI platform for analytics, data management, and operational decision support. - Own end-to-end design across Ask Me, Data Magnet, dashboards, alerts, scheduler, and data-management workflows — discovery through design QA and release. - Reduced task completion time by up to <u>50%</u> by simplifying complex analytics workflows for non-technical users. - Shipped 3 major features — onboarding drop-off down <u>32%</u>, support queries down <u>20%</u> — reaching <u>5,000+</u> active users. - Built and governed a design system of <u>120+</u> components, variants, states, and tokens, increasing reuse by <u>40%</u>. - Ran usability studies and WCAG 2.1 AA audits across <u>80+</u> screens; mobile-first validation improved task completion by <u>25%</u>. - Partner with product, engineering, QA, and business stakeholders to align design with OKRs, KPIs, technical constraints, and roadmap priorities.
--	--

SELECTED PROJECTS

Ask Me Designed conversational analytics end to end — data preview, suggested prompts, file-to-chat interactions, and enterprise sharing patterns — improving insight discovery for non-technical users.	AI · CONVERSATIONAL ANALYTICS
Data Magnet Simplified technical ingestion and processing flows through clearer states, previews, mapping, validation, scheduling, job visibility, and recovery patterns for technical and non-technical users.	DATA INTEGRATION · WORKFLOWS
Dashboard Creation Redesigned dashboard authoring — layout, visualization selection, drill-downs, and alert-driven monitoring — shortening time-to-first-insight for enterprise teams.	BI · DECISION SYSTEMS

EXPERIENCE (CONT.)

PRIOR ROLES

Jul 2023 – Jun 2024
Indore, IN
1 yr

Shanti Infosoft LLP

UI/UX DESIGNER

Owned product design across SaaS, B2C, healthcare, and audit products from discovery through live release.

- Shipped 6 end-to-end products across web, mobile, and tablet — research, flows, interaction design, prototyping, and developer handoff.
- Validated mobile-first healthcare and audit workflows through Maze studies, improving task success by 35%.
- Created reusable Figma systems and clearer specs, cutting developer clarification time by 30% and reducing user errors by 20%.

Aug 2022 – Jun 2023
Indore, IN
11 mo

Incscale Technologies

UI/UX & GRAPHIC DESIGNER

Designed mobile-first B2C applications, e-commerce journeys, landing pages, and responsive websites.

- Used Hotjar insights to reduce bounce rate by 15%; interactive prototypes cut design review cycles by 25%.
- Created wireframes, user flows, and high-fidelity prototypes for client validation and development handoff; supported AI-assisted front-end prototyping.

2021 – 2022
Remote
Volunteer

Aashman Foundation

GRAPHIC DESIGNER · VOLUNTEER

Designed campaign and social-media creatives supporting the foundation's outreach programs for underprivileged communities.
