Priti Jani

Senior Product Designer | Enterprise UX, AI & Data

Bhopal, India (Open to Remote, Global) | +91 91115 25729 | uiuxpriti@gmail.com
Portfolio: uiuxpriti.com | LinkedIn: linkedin.com/in/priti-jani14

SUMMARY

Senior Product Designer with 4+ years of experience building decision-centric experiences for enterprise SaaS, AI, and data platforms. Promoted from Associate UI/UX Designer to Senior Product Designer at Netlink Software Group in 2026. Turns complex analytics and operational workflows into clear, confident decisions, partnering with product and engineering from discovery through release and validating MVPs through user testing with real users before rollout. Currently designing Lumenore, a BI & AI platform spanning conversational analytics, data management, dashboards, and enterprise workflows.

SKILLS

Design: Product Design, UI/UX Design, Enterprise B2B SaaS, AI & Data UX, UX Strategy, Product Thinking, Interaction Design, Information Architecture, Wireframing, User Flows, Prototyping, Design Handoff, UX Copywriting

Research: User Research, Discovery, Journey Mapping, User Testing, Usability Testing, Heuristic Evaluation, A/B Testing, Data-Informed Decisions, Stakeholder Management, Agile / Scrum

UI & Systems: Visual Design, Typography, Responsive Design, Accessibility, WCAG 2.1 AA, Design Systems, Design Tokens, Design QA, Motion & Micro-interactions

Tools: Figma, Figma Make, Framer, ProtoPie, LottieLab, Maze, Hotjar, Miro, Jira, Confluence, Notion

AI & Dev: Claude, Claude Code, Figma MCP, Prompt Engineering, AI-Augmented Design, HTML, CSS, Bootstrap 5, Drupal 11, Git

WORK EXPERIENCE

Senior Product Designer – Lumenore

Jul 2024 – Present

Netlink Software Group | Bhopal, India

Associate UI/UX Designer (Jul 2024 – 2026) → promoted to Senior Product Designer (2026)

- Own end-to-end design across Ask Me, Data Magnet, dashboards, alerts, scheduler, and data-management workflows, from discovery through design QA and release.
- Design Lumenore Ask Me, a GenAI conversational analytics assistant (agentic RAG, MCP integrations): natural language querying, streaming answer states, uncertainty and error handling, and confirmation before users act on model output.
- Run user testing sessions with enterprise customers, including moderated walkthroughs, task-based scenarios, and post-release follow-ups, turning observed friction into prioritized fixes shipped in the next release.
- Reduced task completion time by up to 50% by simplifying complex analytics workflows for non-technical users.
- Shipped 3 major features, reducing onboarding drop-off by 32% and support queries by 20%, reaching 5,000+ active users.
- Built and governed a design system of 120+ components, variants, states, and tokens, increasing reuse by 40%.
- Ran usability studies and WCAG 2.1 AA audits across 80+ screens; mobile-first validation improved task completion by 25%.
- Partner with product, engineering, QA, and business stakeholders to align design with OKRs, KPIs, technical constraints, and roadmap priorities.

Key Projects at Netlink (Lumenore)

- **Ask Me + Data Magnet (AI, Conversational Analytics):** Designed conversational analytics end to end, including data preview, suggested prompts, file-to-chat interactions, and enterprise sharing patterns, simplifying technical data workflows and improving insight discovery for non-technical users.
- **Dashboard Creation (BI, Decision Systems):** Redesigned dashboard authoring, including layout, visualization selection, drill-downs, and alert-driven monitoring, shortening time-to-first-insight for enterprise teams.

UI/UX Designer

Jul 2023 – Jun 2024

Shanti Infosoft LLP | Indore, India

- Owned product design across SaaS, B2C, healthcare, and audit products from discovery through live release.
- Shipped 6 end-to-end products across web, mobile, and tablet, covering research, flows, interaction design, prototyping, and developer handoff.
- Validated mobile-first healthcare and audit workflows through Maze studies, improving task success by 35%.
- Created reusable Figma systems and clearer specs, cutting developer clarification time by 30% and reducing user errors by 20%.

UI/UX & Graphic Designer

Aug 2022 – Jun 2023

Incscale Technologies | Indore, India

- Designed mobile-first B2C applications, e-commerce journeys, landing pages, and responsive websites.
- Used Hotjar insights to reduce bounce rate by 15%; interactive prototypes cut design review cycles by 25%.
- Created wireframes, user flows, and high-fidelity prototypes for client validation and development handoff; supported AI-assisted front-end prototyping.

Graphic Designer (Volunteer)

2021 – 2022

Aashman Foundation | Remote

- Designed campaign and social media creatives supporting outreach programs for underprivileged communities.

MAJOR EXTERNAL PROJECTS

Tabnet Security – Product Revamp | tabnet.io

Cyber Risk Quantification & Third-Party Risk Management Platform (B2B SaaS)

- Led the end-to-end product revamp across UI and UX, redesigning the platform from a light theme to a dark theme for a cybersecurity SaaS product covering cyber risk quantification (ACRQ model), third-party risk management, and compliance tracking.
- Enhanced visual hierarchy, data readability, and overall UX across risk dashboards and security workflows, delivering a modern, consistent interface.

StudyCrux – Admin Module Design | studycrux.in

Insurance Exam Prep & Insurance Management Platform (EdTech)

- Designed the admin module for an EdTech platform offering LIII, AIII, and FIII insurance exam prep, government exam mocks, and personal insurance management.
- Created admin workflows, dashboards, and content management screens to streamline platform operations.

EDUCATION

Diploma in Design – ITEG, Sant Singaji Institute of Science and Management

Bachelor of Computer Applications (BCA) – Vikram University 2020 – 2023

CERTIFICATIONS & AWARDS

Best Performer – Lumenore, Netlink Software Group 2026 Q1
